

May 15, 2015

Dear Colleague,

Do you have an interest in anesthesia for patients with obesity, are you exploring research in this area and are you looking for more educational material and collaborative opportunities?

You can have a voice that is becoming stronger every year as a member of **ISPCOP!**

ISPCOP is the International Society for the Perioperative Care of the Obese Patient. Our mission is to facilitate progress in the perioperative care of and research regarding this special population. This is a young and dedicated learned society that you should consider as one of your professional homes.

Members also have access to the **Federation of Anaesthesia Obesity Societies** with representation from around the globe, and membership meeting benefits from each member society. Checkout the combined Federation **newsletter** at: <http://bit.ly/1KeYWAT>

ISPCOP offers you education and collaboration with like-minded colleagues at a very low cost; and students and residents join for FREE.

Visit us at [www.ISPCOP.org](http://www.ISPCOP.org) and join our **annual scientific meeting** at the 2015 ASA in San Diego on Monday, October 26, 2015. The call for abstracts will be announced July 1<sup>st</sup>. More information and free registration may be found here:

<http://louisville.edu/medicine/cme/events/ISPCOP15>.

Please feel free to forward this message to other interested colleagues.

Questions are welcome. Hope to hear from you soon,

Your ISPCOP leadership team
